

suitable for:

# SUZUKI DR-Z 125

2003-2010

**CYLINDER, PISTON, GASKET KIT**

**BIG BORE Ø 63 mm / 152 cc**

P/N: **P400510100018**

SUGGESTED  
RETAIL PRICE

**€540.00**

VAT INCLUDED

TECHNICAL  
CHARACTERISTICS

ATHENA proposes its BIG BORE kit for **SUZUKI DR-Z 125**. The new design includes **larger fins** which improve the cooling process and therefore guarantee a longer life. The cylinder has been combined with a **cast piston** which is lighter than the original one; its low mechanical strength is perfect for this type of engines that always tend to overheat when used in harsh conditions. Finally, the gaskets have been developed using technology which is normally applied on engines with much higher power rating; in particular, the **multilayer head gasket** provides a new system of reliefs that guarantees a perfect seal even at high temperatures.
